

Dear families,

Over the past few days, we have had a cluster of positive COVID-19 cases develop across multiple campuses. Due to the quickly developing situation, we are requiring all staff and students on all campuses to wear a face covering as we add additional layers of protection. This level of response will stay in place through 10/28/21. We expect to have a better understanding of exposures by that time.

At this time we are evaluating the need for remote learning dependent on staff capacity to cover programs because of a shortage of substitutes and staff childcare connections. If remote learning becomes necessary, a separate communication will be sent.

Two reminders. First, we will contact you directly if your child has been potentially exposed. Second, if your child is [symptomatic](#) please keep them at home until you can make a plan with your school's nurse. Thank you for your **support**.

Respectfully,
David Blackburn
Superintendent
